

S T E A L T H
for high speed only

BMW® S 1000 RR

reddot winner 2021
best of the best

BMW® S 1000 RR

Out of the interface between racing experience
and aeronautical inspiration comes the new

Stealth mirror

**an accessory specifically designed
for supersport bikes.**

Dual functionality

open: a rear-view mirror

closed: an aerodynamic wing

A 25° angle with respect
to the ground creates

downforce

(around 4 Kg at 300 km/h
with both mirror closed), useful
to improve both bike's grip
and handling.

Aerodynamic riding position

prevents the rider from losing the air protection of the windshield.

Available in three anodized colors

Silver

Thunder Grey

Black

Stealth
Sport Mount
